- **GWA: 1.56 —** *Cum Laude*

WORK EXPERIENCE

Easycom Japan Philippines Inc. **Feb 2026 – May 2026**
Software Engineering Intern *Makati, NCR*

- Designed the UI/UX for the company's Mobile HRIS in Figma, covering core employee workflows such as attendance, leave, overtime, offset, and employee records.
- Supported development and updates for HRIS features using React Native, Angular 14, and TypeScript across mobile and web platforms
- Deployed and configured the HRIS backend on Linode, including server and user setup, PM2 process management, and systemd service configuration to support the production environment.
- Conducted QA testing for Mobile and Web HRIS workflows to validate data accuracy, role-based access, and cross-platform consistency across core HR functions.

PROJECTS

Badminton Tournament Management Platform | GITHUB | WEBSITE
PHP, HTML, Tailwind CSS, Alpine.js, MySQL

- Built a full-stack tournament management platform for managing badminton club operations, player registrations, bracket generation, match scheduling, and score tracking.
- Developed role-based dashboards and automated ranking features to support tournament management and user access control.
- Built as our Capstone Project.

Appointment Booking System | GITHUB
PHP, HTML, CSS (Bootstrap), JavaScript, MySQL

- Created a full-stack appointment booking application for a salon business, including online booking, authentication, admin dashboards, and reporting tools.
- Implemented scheduling logic, transaction tracking, and email notifications to streamline appointment management and operations.
- Built for our IS Project Management course.
