EDUCATION

Technological University of the Philippines - Manila **2022 – 2026**
Bachelor of Science in Information Systems *Manila, NCR*

- **Related Coursework:** *Computer Programming 1&2 (in C), Data Structures and Algorithms, Object Oriented Programming (in Java), Systems Analysis and Design, Information Management (Database Management), Information Systems Project Management*
- **GWA: 1.56 —** *Cum Laude*

WORK EXPERIENCE

Easycom Japan Philippines Inc. **Feb 2026 – May 2026**
Software Engineering Intern *Makati, NCR*

- Designed Mobile HRIS screens in Figma for attendance, leave, overtime, offset, and employee records across Admin, Manager, and Employee roles.
- Connected the Angular 14 web app to backend APIs so users could access the same HRIS data and features as on mobile.
- Deployed the HRIS backend on Linode, configuring servers, user access, PM2, systemd, and basic CI/CD for production.
- Tested Mobile and Web HRIS features to identify data, access, and cross-platform inconsistencies.

PROJECTS

Badminton Tournament Management Platform
Laravel 12, PHP, Vite, Tailwind CSS, Alpine.js, MySQL

- Developed a tournament platform for organizers and players to manage registrations, schedules, brackets, and match results as our capstone project.
- Added round-robin and single-elimination brackets, ELO rankings, withdrawal handling, and email notifications.
- Created role-based dashboards for organizers and players.

Appointment Booking System
PHP, MySQL, JavaScript, Bootstrap 5, PHPMailer

- Developed an eyelash salon booking system for our IS Project Management course, where customers can register, browse services, book available appointments, and leave reviews.
- Created an admin panel to manage appointments, services, users, and transactions, with sales reports and CSV export.
- Added email notifications for new appointments.
